We dedicate this Devil's Diary with its memories to one who helped make them.

Dedicated is the word to best describe this man. He has the ability to instill in each of his students the love for science which he possesses and the knowledge it takes to acquire this love. He has done more than enough to help each student to develop his mind and to understand what he is doing.

Not only does he require outside research on the part of his students, but he also attends seminars, summer institutes and lectures himself so that when he returns to school, he can be even more prepared to teach and to teach well.

He is a teacher all around; he has a sense of humor and a love for teaching and learning.

It is to this man, Mr. William O. Fenner, that we dedicate the 1968 Devil's Diary in gratitude for what he has done for us.

FOREWORD

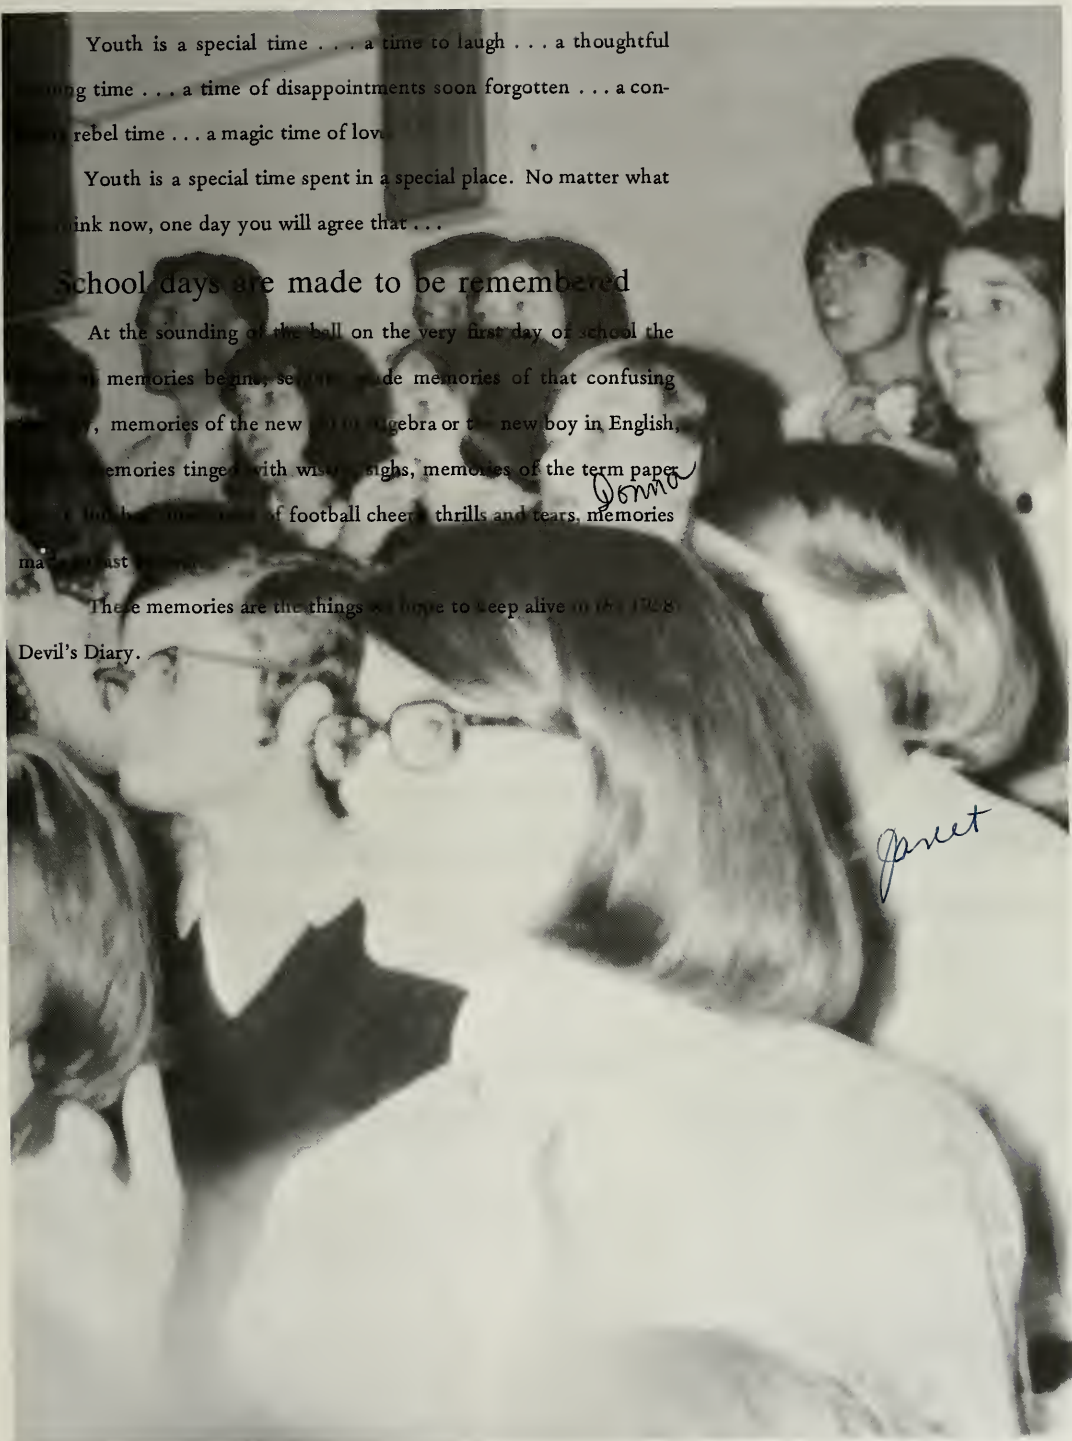

Youth is a special time . . . a time to laugh . . . a thoughtful
time . . . a time of disappointments soon forgotten . . . a con-
fident rebel time . . . a magic time of love.

Youth is a special time spent in a special place. No matter what
you think now, one day you will agree that . . .

School days are made to be remembered

At the sounding of the bell on the very first day of school the
memories begin, so many memories of that confusing
first day, memories of the new math or algebra or the new boy in English,
memories tinged with wisdom, sighs, memories of the term paper
and the football cheer, memories of football cheers, thrills and tears, memories
made to last forever.

These memories are the things we have to keep alive in the Devil's
Diary.

Youth Is Togetherness

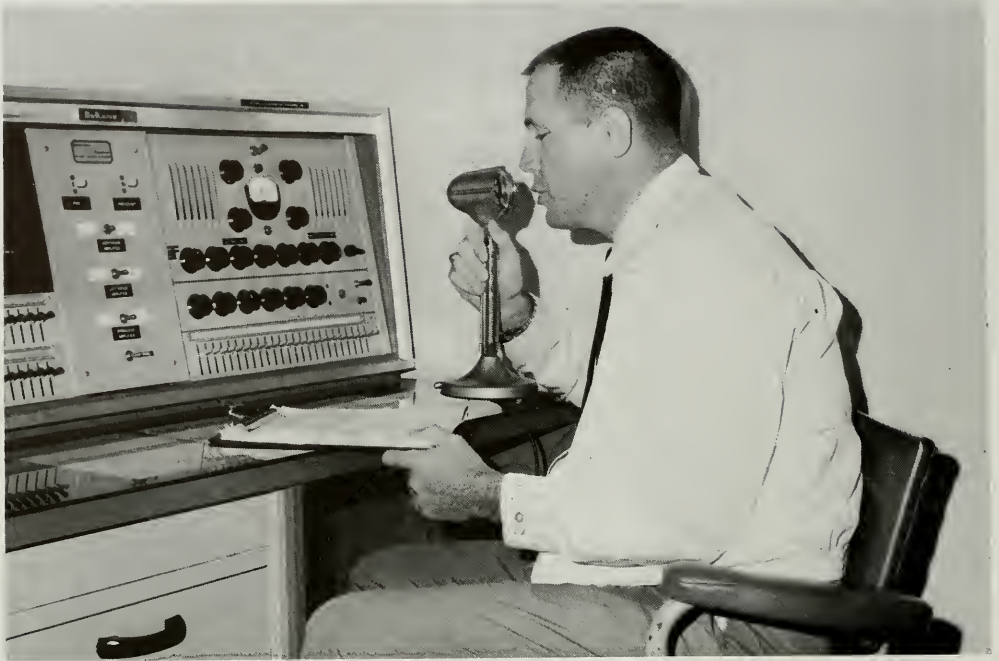

At 8:20 the first bell rings — the bell which means the start of a new school year at Lakeview, the last for many and the first for many more. It is the month of September bringing all its newness — new teachers, new books, new classes, new friends, new experiences. It is the month of old things renewed — familiar faces, familiar buildings, familiar traditions. From the arrival of the first school bus until the departure of the last, it is the month to remember, for it brings together the old and the new.

Principals Prove

Reading the daily bulletin and making special announcements is a duty shared by Mr. Moore and Mr. Thurmond. Today must be Mr. Moore's turn.

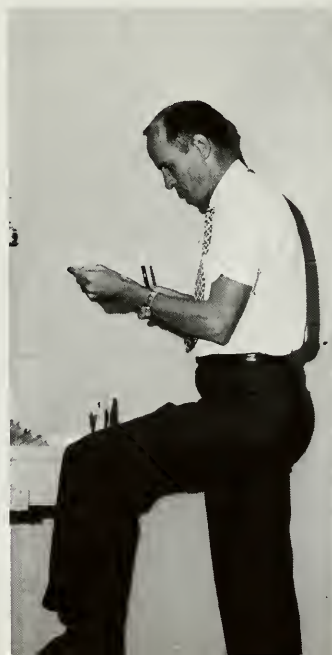

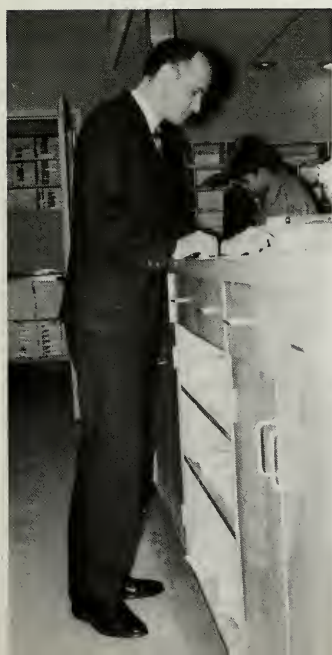

Versatile

Principal Robert Moore and Assistant Principal Harold Thurmond are, without doubt, two of the most important people at Lakeview. Through their wise administration and interest in the student body, our Alma Mater continues to set new records in both scholastic and athletic achievement. Aside from being the general directors of the school, these two versatile men act as hall and cafeteria monitors, conduct student assemblies, participate in faculty - student activities, and are personal advisors and friends to every Lakeview student.

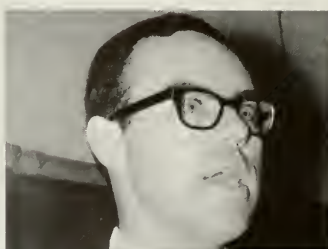

Unlocking the office is another one of the jobs that Mr. Thurmond performs daily.

The Faculty

Coordination and cooperation are vital parts of any school system. Lakeview is no exception. Work is made easier when our faculty and counselors work together to solve problems. Lakeview's deans, Mrs. Martin and Miss Robison, spend much of their time working with students and helping them to make plans for the future.

The interest shown by these students and the busy activity of Mrs. Petris's students is typical of all of LHS's math classes.

Language Expands Student Abilities

Whether it is English or a foreign language, Lakeview students find a lot of hard work is involved in learning any language. Junior high students strive to master the basics of English, while junior and senior classes are plagued by semester term papers and footnotes. The sophomores think they have it made until they try the 'grandiloquous' vocabulary tests in English II. Spanish students will remember "BERNARDO EL BURRO" as long as the French students remember 'amoure, amoures, amoure . . . '.

Science Explains Life

Kinetics and dynamics can be fascinating, as shown by the Physics students observing wave movement in springs. Comparing data on oxidation-reduction is common practice in Chemistry lab. The effects of RNA and DNA on heredity is studied in Biology. Earth Science students learn about specific gravity and soil ppt. Seventh and eighth graders are also offered science courses that are aimed at providing explanations concerning the aspects of life.

Social Studies Deal With Man's Past, Present, And Future

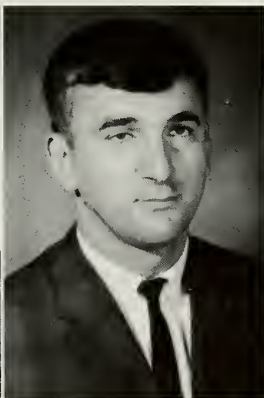

Geography and Civics are two of the first social study courses offered to LHS students. A basic understanding of man's environment and law prepares junior high students for more advanced history. Sophomores study the complete history of man in World History, while Juniors rush to get U.S. term papers written during breaks at Prom work sessions. Lucky seniors elect to take either A.V.C. and/or P.A.D. or Contemporary History. These classes come complete with field trips to such places as a prison and fantasy trips with incense and gurus.

Concentrate On The Individual

"This zipper has to be done over again!" is probably the most frequent and frustrating statement a home economics student hears. But she learns to sew, and her completed dress is quite stunning. On the other side of the LHS campus, in a three hour mechanics class, the boys are having a few minor problems on an old Chevy. A student receives some individual instruction on improving his reading in another class. These are the kinds of experiences the Allied Arts students will always remember.

These are the many sounds of a physical education class. The sounds of boys and girls learning and having fun at the same time.

Efficient Staff Runs Office Smoothly

"Lakeview High School." . . . answering the phone is just part of Mrs. Jeanne Hinson's secretarial duties. Mrs. Irmalee Thompson, school treasurer-bookkeeper, is ready to make an announcement.

Mrs. Anna Ruth Bozeman, guidance clerk, is busy typing a copy of a student's grade record. In the background, Mrs. Andrea Davis, permanent substitute, assists her by looking up the student's address. Another voice commonly heard on the telephone belongs to Mrs. Anne Reville, migrant teacher's aide.

In Memoriam

Edwin O. Geurin
1914-1967

A pleasant smile was the trademark of the Junior Class sponsor and English teacher.

It flies at half mast to honor him.

He held his pencil a peculiar way . . . he always had a smile for everyone and a twinkle in his eyes . . . a cheerful whistle made his presence known . . . he always talked about his 'E.O.G.' machine, his lovely wife and God . . . he carried with him a look which meant "I'm your friend."

These are the things we will always remember about our Mr. Geurin who passed away on Saturday, October 21, 1967.

Miss Barbara Foote Crowned 1967 Homecoming Queen

The noise of excitement in the stands subsides as the lights go out. A tight, heavy silence grips the night as Mr. Moore drifts from girl to girl. When the lights finally come on, amid tears and applause, Barbara is crowned our queen. As Dorothy Grimes, last year's Homecoming Queen, lowers the crown, crazy, lovable Barb gasps through her tears, "I think I'm going to cry."

Let's Hear It For Varsity

From their first practice in August, until the tryouts in March the Varsity Cheerleaders are constructively occupied — selling candy, making posters, organizing pep rallies, having bake sales, and enjoying themselves, too. With practice twice a week, basketball games, and football games the cheerleaders really have their hands full. They never complain. Cheerleading takes time, enthusiasm, and a special kind of pride.

"This meeting will now come to order." That's the familiar sound which is heard throughout the school week. It's the sound of a club meeting about to begin.

The clubs at Lakeview are as much a part of school activity as sports, concerts, and field trips. Each club has a specific goal. The service clubs donate time and money to better their school, homes, and communities. The career clubs study various career choices which will help members in the future. They each have a role in making school days into memories.

Annual staff is a class this year — an accredited course! A new class is always confusing, and the beginning of the year certainly sees a confused annual staff. The class becomes familiar with layout rules, copy pages, signatures, reverse type and eventually things fall into place. The work begins and the ruined layouts, the rush

to meet the first deadline, the mistakes gradually become things of the past. The machine begins to work. Each part supporting the others. Things fall into place and miraculously an annual takes shape . . . naturally, the best annual in the world. It is an annual made to be remembered!

Student Assemblies

Juniors Go Dramatic

Is Papa really dead? The student body is puzzled until the Junior Class presents "Papa is All." Through their time and talent, Linda Bozeman, Neil Franklin, Pam Beach, Mark Adkins, Diana Bloebaum, Bobby Freeman, and their director, Mrs. Graunke, make their play a success.

The month of January is presented by the eighth grade favorites Brenda Holland and Clyde Hicks.

Their month is full of the feelings of team spirit as the basketball season comes into full swing.

The fans yell, the cheerleaders cheer and the team sweats out the last few seconds of the game hoping for the tie-breaking basket.

These things are January's reminders of good times and school spirit.

Track Team Participates

The word track covers many athletic activities and aptitudes. However, they all have one thing in common — an intricate combination of coordination, endurance, and skill. The Lakeview track-team's success is reflected with its three wins, one loss, a second in the Clermont Invitational, and a fourth at the O B C Meet in DeLand. This year two of the track records were broken. Doug Gamble broke the Discus Record at the first track meet with Ocoee throwing the discus 137 feet. The mile record was broken by Danny Hartsfield running a 4:51 mile. The highest scorers for the season were Fred Dorman — 49½ points, Teddy Melinn — 47½ points, and Doug Gamble — 38 points.

In Seven Meets This Season

With eleven defeats, the Devil underclassmen gain valuable experience on the baseball diamond. Losing only four seniors, the Devils build for next year's team.

Lakeview Nine Has 4-11 Season Record

Cal Sadler again makes All Orange Belt Conference while leading in batting with a .486 average. This year is not the Devils' best, but it leaves a bright outlook for the future.

Returning pitchers for next year are Doug Fairel, Chuck Sargent, and Doug Hutto.

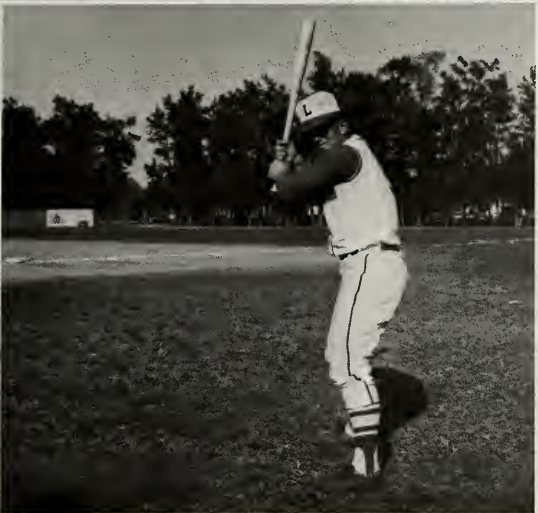

FRONT ROW: Doug Thompson, Chris Brown, Pat Lyons, Doug Fairel, Benny Fussell, Jerry Carris, and Jack Williams. BACK ROW: Ronald Johnson, George McMillan, Cal Sadler, Chuck Sargent, Doyle Lowery, Jan Gowland, and Reggie Sterns.

All-Conference catcher, Cal Sadler, is ready for action.

Doug Fairell slashes hit while Jerry Carris prepares to bat.

April reveals the two enthusiastic Junior Class favorites Janet Barnes and Chuck Sargent as they choose Prom pictures.

April is a big month for the Juniors. It is the month to work day and night for weeks making their Prom better than their predecessor's.

For the Seniors, it is the time to be curious about what the underclassmen can do.

Formals, flowers, dinner jackets, candles and music — that is the Prom. It is Ronnie's for snacks afterwards and Daytona for sun on Saturday.

Then back to school all go for the last month before finals and for a chance to acquire more memories.

Prom night has a special
 memory for the Senior Prom
 couple, Charlotte Ayers and
 Ken Donahey as they make
 the most of a beautiful even-
 ing.

April 19, 1968

The happy juniors sighed with relief. The last minute rush and enduring the usual senior groans had all been worth it!

Until The Last Goodnight The Prom Remains A Lovely Memory

The success of the prom lasted well past midnight. When the band stopped playing most of the couples headed for Ronnies. A few hours later it was morning and herds of sleepy students stormed the beach.

"Hand me another star," "Who's got my hammer?" "If you don't quit dripping paint on my head, I'll . . . !" "Hey you guys, get those plants

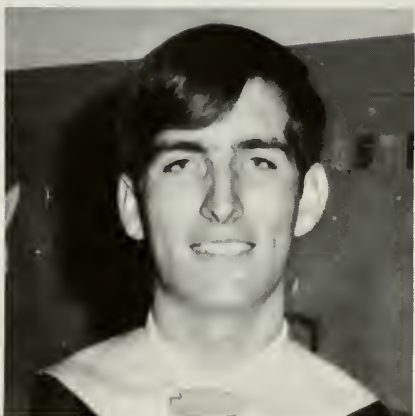

Juniors Decorate And Entertain For The Prom

in here, the Prom is tomorrow you know." "I sure hope Tommy doesn't lose his pants in his 'Little Egypt' dance." "Talk about being 'sheik,' look at Cal."

"I'm still hungry!" "Pass the sugar please."
 "What do you do when you drop baked po-
 tato in your lap?" "That band sure can rock
 out." "My feet are killing me." "Who's got
 my shoes?" "What a beautiful dress." "(I
 really don't like it!)" "I'm still hungry!"

"Pomp and Circumstance" sounds in the ears of Senior Class favorites Cynthia Warden and Eddie Bradford as they make final adjustments for the big day.

May is the month for Seniors, for it is the month of gowns, mortar boards, diplomas and tears . . . Graduation. It is the final month of school for some and the threshold to college for others. It means final exams, graduation practice, and that last walk through LHS. It is the month in which reality knocks on the door of every graduate.

For underclassmen, May means final exams and summer vacation.

May IS a memory.

Character, leadership, scholarship, and service are the qualities exemplified by . . .

Miss Devilier 1968, Miss Cynthia Warden

Each year the Lakeview faculty chooses one girl as the representative of the Senior Class who best exemplifies the qualities of character, leadership, scholarship, and service.

She must be an upstanding person, both as a student and as a citizen. She must show leadership capability and a desire to serve others. Not only do these things hold true, but she must also show scholastic talents.

Five girls with these qualities are selected as the Miss Devilier Court. One receives the high honor and the others serve with her on her court.

This year's choice as Miss Devilier 1968 is one who truly represents Lakeview High School.

PROTEST AND PROGRESS

It may shock some Hippies to learn that living in disregard of conventions while pursuing art and intellectualism is older than antimacassars. Hippies even *look* like old-time Bohemians.

Also, there's nothing *unrespectable* about protest. Plato taught, in the 5th Century, B.C., that man can move toward the highest good by constant questioning of assumptions. His *Republic*, a plan for a new social order, was followed a thousand years later by St. Augustine's *City of God* . . . and in another thousand years by Sir Thomas More's *Utopia*.

The Great Seal of the United States proclaims a New Order of the Ages, *Novus Ordo Seclorum*. No sooner was the Great Experiment launched, than little experiments—agrarian communal colonies—sprouted from Texas to Massachusetts. These petered out, one way or another.

What changes the social order most radically is not revolt against society, but *practical invention*—moveable type, steam engines, electric light, automobiles, computers . . . the corporation, advertising, credit buying. Billions invested in research and development are accelerating changes.

Both protest and progress stem from discontent with things as they are. But progress *happens*—undramatically—the result of small, practical improvements. That's why your world will *not* be like the past, but a New Social Order.

Kenore -

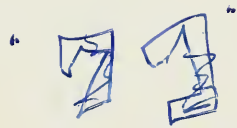

You know we've known each other a long time. We were just separated until last year. Do you remember when I used to come to your house on the lake and swim? It was a lot of fun.

I'll never forget that wreck we had either. The brakes wouldn't work!

Good luck to you and stay cute and sweet!

Love.

Denore,

To someone I have always enjoyed having as friend. I'll always remember all those dumb things we did in 3rd & 4th grade. Ha!

You've got a great personality - so don't ever lose it!

Well, last year was a pretty good year. - Remember that camp-out at Kathy's - oh, brother. And we got this year (plus two more after this) to really RAISE HELL! But then we have to work some too. I'd might help!

You keep up your good work at LHS and stick around with us. I don't think it would be fair if you got to go to a better school... in Orlando, Oh, well, Good luck (?). Be good, but have fun this school year!

Love ya',
